## **Context**

In the month of July 2021 group decided to go back to Bhopal for the workshop. But due to Corona it was again hard to travel because still the things outside was not working normally like travelling intrain and flights. We decided instead of travel we organised online meeting with Bhopal Group.

We started online workshop meeting from Creacting India Bodhgaya days online session.

## **Preparation**

After our online meeting with Asha Frankfurt and Muskan Bhopal on 18<sup>th</sup> July we finalised the date of online workshop. So we finalized the date together to start online workshop from 2<sup>nd</sup> Aug till 7<sup>th</sup> Aug ( 10:30 am to 02:30 pm ).

Before starting the workshop we had to select two leaders from Bhopal Theater group because someone had to be there for leading. So I and Vinod decided to ask Jitu and Prity for leader.

As group was big and we were also not there so we started to train Jitu and Prity for the workshop.

We planned with Jitu and Prity to meet everyday after the workshop for knowing feedback about the day and also for next day planning.

This time our objectives were.-

- Developing self confidence in leading.
- Increasing their thinking ability.
- Introducing presence in the workshop.
- Improving creativity.

We asked Brajesh and Palav to provide internet and laptop to them for the preparation of the workshop with us. . Brajesh and Palav were the person who were managing everything during this project.
